

About Signia

Signia is one of the leading hearing aid brands in the world. Our goal is to enhance human performance through iconic innovations that shape the prescription audio category. We refuse to accept hearing loss as a limitation. It's not about correcting a loss, it's about gaining an edge. Not just performing, performing brilliantly. Not just hearing again, but hearing better than ever. Hearing every word, beat, and breath. With Signia, you can Be Brilliant.

The information in this document contains general descriptions of the technical options available, which do not always have to be present in individual cases and are subject to change without prior notice.

Trademarks and trade names are those of their respective owners.

¹ Jensen, N. S., Wilson, C., Kamkar Parsi, H., Samra, B., Hain, J., Best, S., & Taylor, B. (2024). Signia IX delivers more than twice the speech enhancement benefit in a noisy group conversation than the closest competitors. Signia White Paper.

² Jensen, N. S., Taghvaei, N., Taylor, B. & Samra, B. (2024). Real-world assessment of Signia Integrated Xperience with RealTime Conversation Enhancement. Signia White Paper.

³ Høydal, E. H. (2017). A new own voice processing system for optimizing communication. Hearing Review, 24(11), 20-22.

IX BTE family

Cut through the noise, with Signia's latest hearing technology

Stay connected with Motion Charge&Go IX: Enjoy clearer conversations, even in noisy places, thanks to our unique RealTime Conversation Enhancement technology.

Stay powered-up, for peace of mind: With easy rechargeability, you can benefit from over a full day of use, no need to worry about changing fiddly batteries.

Stream with ease: Bluetooth® and built-in telecoil allow you to stream calls, music, or TV audio right to your ears.

Customised hearing experience: It's easy to adjust your hearing settings, if desired, with our user-friendly mobile app.

Five reasons to choose a Motion Charge&Go IX

- **Superior speech enhancement:** Proven to deliver more than twice the speech enhancement in noisy group conversations compared to the closest competitors,¹ RealTime Conversation Enhancement makes it easy to follow and contribute to group conversations.²
- **Reliable all-day power:** With an unparalleled battery runtime of up to 65 hours, you're safe in the knowledge that you have enough power to keep you going all-day, and then some!
- **Fit for every need:** No matter the level of hearing enhancement you need, there's a Motion Charge&Go IX for you - including the longest runtime of any rechargeable superpower BTE. It also offers up to 82 dB of gain - and with this level of power, even the softest sounds become clearer - the ideal solution for those with severe to profound hearing loss.
- **Contribute with confidence:** Your own voice sounds just right with our patented Own Voice Processing 2.0, meaning that you will sound more natural to yourself when speaking to others. A natural sounding 'own voice' is a challenge many new hearing aid wearers face - but with Signia's technology, it needn't be a worry.³
- **Real-time fine-tuning:** Signia Assistant is your convenient AI helper offering intelligent customisations to personalise your listening experience in real time.
